**STOP THIEF’**

A classic family board game with an exciting new electronic dimension. Somewhere on the playing board, which represents a city block, a crime is committed. It’s up to the players to use audible dues from the Electronic Crime Scanner to track and arrest an invisible thief.

The scanner gives each detective clues in the form of realistic sound effects (creaking door, breaking glass, footsteps, sirens, gunshots, etc.) that help them close in on the thief. The detective who catches up to the thief first, can call the police and listen to the sirens as the squad car comes in to make the arrest...unless...the thief gives him the slip and gets away! The first to accumulate $2500 in bounty wins. It’s a perfect blend of the excitement of an electronic game and the family fun of a board game!

Ages 8 to adult. 2-4 players.
